

CONNEXIONS des CARTES DE PUISSANCE

NOTA : For the MIDI cable, only pins 5 4 and 0V (MASS) are mandatory.
 +5V can be used (but not recommended) to supply the microprocessor part of the CIPARO3x64
 Connect to same pins on the KI6x8x8 or on the KI7_MIDI_USB
 Distance up to 50m
 If you have heavy duty magnet, solder a wire 2,5mm² on the top of the Darlington.
